FINANCE DEPARTMENT

124 W. Michigan Ave., 8th Floor Lansing, Michigan 48933 (517) 483-4500

December 19, 2014

Council President A'Lynne Boles and Council Members 10th Floor City Hall Lansing, Michigan 48933-1694

Dear President Boles and Council Members:

We are pleased to submit the comprehensive annual financial report of the City of Lansing, Michigan for the fiscal year ended June 30, 2014.

The City assumes full responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations government wide and of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City's fiscal year 2013/2014 financial statements have been audited by Rehmann Robson, an independent firm of licensed, certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements for the City of Lansing for the fiscal year-ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures contained in the financial statements; assessing the accounting principles used; and evaluating the overall financial statement presentation. The independent audit concluded with the rendering of an unmodified opinion on the statements, meaning the financial statements present, fairly and accurately in all material respects, the financial position of the City in conformity with Generally Accepted Accounting Principles ("GAAP"). The independent auditors repot is presented as the first component of the financial section of this report.

This letter of transmittal is designed to complement the Management Discussion and Analysis (MD&A) and should be read in conjunction with it. The Management Discussion and Analysis can be found immediately following the Independent Auditor Report.

Profile of the City of Lansing

Serving as Michigan's capital since 1848, the City of Lansing was incorporated in 1859 and operates under provisions of Public Act 279 of 1909, as amended (the "Home Rule City Act"). The City incorporates 34.7 square miles and is located in the lower middle of Michigan's Lower Peninsula and operates under a strong mayor form of government established by 1978 Charter revision.

Lansing is a mature core city with a population of 114,297, according to the 2010 census, and offers a full range of services. During the fiscal year ended June 30, 2014, the City operated police headquarters and a precinct with over 190 sworn police officers; six fire stations with a fire protection force of over 170; over 350 miles of sanitary sewers, 230 miles of storm sewers, and 180 miles of combined sewers; over 400 miles of roads; 113 parks; a District Court; and support for human services and cultural events. The City's main sources of revenue are property taxes, income taxes, State revenue sharing, Federal entitlement grants, and charges for services, including utility billings.

Reporting Entity

The financial reporting entity (the City) includes all of the funds and of the primary government (i.e., the City as legally defined), as well as its blended component units. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. The Lansing Building Authority is a blended component unit. Discretely presented component units are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the primary government and to differentiate their financial position, results of operations and cash flows from those of the primary government. The Lansing Entertainment & Public Facilities Authority, Tax Increment Finance Authority, Brownfield Redevelopment Authority, and Smart Zone are reported as a discretely presented component units.

Financial Management and Control

Management of the City of Lansing is responsible for establishing and maintaining internal controls designed to ensure that the assets of the government are protected from loss, theft, or misuse and to assure that adequate accounting data is compiled to allow for the accurate presentation of financial statements in conformity with generally accepted accounting principles.

To provide a reasonable basis for making these presentations, management has established a comprehensive system of internal controls designed to reasonably ensure that assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of these financial statements in conformity with generally accepted accounting principles. Such controls include appropriate policies and procedures, ongoing risk assessment, and monitoring and review processes which are communicated throughout City operations. Because the cost of internal controls generally should not outweigh their benefits, the City's framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that these objectives are met.

Because the City is a recipient of federal grant dollars, the independent audit of the financial statements of the City of Lansing was part of a broader, federally-mandated "single audit" in conformity with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Circular A-133, Audits of States. Local Governments, and Non-profit Organizations. The standards governing the single audits require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements involving the administration of the federal awards. These reports are available in the City's separately-issued Single Audit Report.

Financial results and applicable policies affecting year-end results for the fiscal year-ended June 30, 2014 are discussed in the Management Discussion and Analysis (MD&A), located immediately following the Independent Auditor Report.

Budgeting Controls

The annual budget serves as the foundation for the City's financial planning, policy-making, and control. The City Charter requires that the Mayor submit to the City Council a proposed budget by the fourth Monday in March. Budgetary controls and limitations are noted in the Note Disclosure Section of the financial statements.

The City also maintains an encumbrance accounting system, whereby purchase orders amounts are deducted from the available budget, as one technique of accomplishing budgetary control. Encumbered amounts lapse at year end and require Council approval to be carried forward to the ensuing fiscal year for amounts greater than \$5,000 or greater than eight months old.

Economic Condition and Outlook

Aggressive economic development activities have resulted in a number of economic projects that have happened in 2014, resulting in more than 1,400 new direct jobs and equating to \$528 billion in investments. Several more are slated to break ground in 2015.

- . Though not in the City of Lansing, it is critical to note that Michigan State University (MSU) is on the border of Lansing. MSU recently broke ground on the \$550 million Facility for Rare Isotope Beams (particle acceleration), one of the world's most high tech machines. It has already attracted to the city and region 200 of the world's top nuclear physics minds, and promises up to a 1000. MSU is ranked as the #1 nuclear physics program in the country, one spot ahead of M.I.T., according to US News and World Report. Niowave, a spin-off of MSU's accelerator work, is an example as to how MSU financially benefits the City.
- . The City has two major General Motors (GM) plants. During 2013/2014, GM made several significant announcements for its Lansing plants:
 - . Construction of a 400,000 square foot, \$40 million, 200 new job Logistics Center to be built as part of their Grand River Lansing Car Assembly plant. Plant will be ready for 2015.
 - . Construction of a new stamping plant, investment valued at \$162 million and 65 additional jobs.
 - . Re-location of the Camaro production from Canada to the City's Grand River Car Assembly plant. This will move the plant from the current two to three round the clock, full shifts and more. 600 1000 new jobs. The two new facilities (Logistics, Stamping) and employees should be fully in operation in July 1015.
 - . The Outfield development, a \$27.6 mixed development featuring four stories of apartments located in the outfield of Lansing's Cooley Law School Stadium, as well as improvements to the stadium, was announced. The projected will commence the summer of 2014 and is expected to be completed by the spring of 2016.
- . Niowave announced a 50,000 square foot, \$202 million medical isotope production facility in the City of Lansing. 127 jobs and \$60,000 average wage will be created. Construction is slated to begin in the fall of 2014. This \$3 billion cutting edge, pharmaceutical industry is produced primarily in Europe and Canada, thus this facility is one of America's first. In addition to this, Niowave has completed its Prototype Development/Research and Development building, adding 25 jobs at average salary of \$60,000 with over \$10 million in machinery and equipment.
- . Jackson National Life, a Fortune 500 company and the nation's #1 individual annuities company, has announced that they will double the size of their national headquarters in the City of Lansing, adding \$114 million in new structure as well as adding 1000 new, very high paying, white collar jobs. Construction should begin in the spring of 2014. Average salary for these 1000 new jobs will be \$76,000 all within the City.

- . The downtown Knapp's department store, a \$36 million rehabilitation project that will create over 100 jobs as well as fully redeveloping an entire city block. This building and block have been abandoned and unused for several decades. It will also house the City's new Fashion Incubator, called the Runway, which is attracting interest from over 36 tenants across Michigan. The newly-renovated Knapp's building is poised to open in the fall of 2014.
- . In partnership with the City, the Sault Ste. Marie Tribe of Chippewa Indians announced plans for a 125,000-square-foot Kewadin tribal casino to be located next to the City's convention center. The casino is planned to have 3,000 slot machines and 48 gambling tables and is projected to generate 1,500 jobs. Revenue sharing from the operations of the casino are planned to fund four-year college scholarships for Lansing School District graduates, modeled after the Kalamazoo Promise. The development has met some legal challenges, but is progressing.
- . The Market Place project's steel is now constructed. This \$10 million market rate, mixed use/residential building is the City's first on its downtown riverfront. It will bring 80 units on line and is Phase I of two more phases to be completed in the next five years. It will open in the late fall 2014.
- . The MidTown market rate, mixed use residential building's foundation is in place and will be completed by early 2015. Located on Michigan Avenue, at the border of Lansing, East Lansing and Michigan State University, it is targeting the ever-growing Chinese population of Michigan State University, with nearly 100 units as well as a PNC bank branch on the first floor.
- . The "Red Cedar Renaissance" mixed use project was announced in 2013. This signature project was put together by one of North America's top developers, Continental Groups. The \$200 million, 1,000-job-and-resident project will develop the former City-owned Red Cedar Golf Course and act as a catalyst for the entire Michigan Avenue corridor, which connects, Lansing, East Lansing, the Capitol building of Michigan and Michigan State University.
- . The publicly-owned utility Lansing Board of Water and Light completed and opened its \$180 million cogeneration natural gas plant in Lansing's REO Town. It also moved its corporate headquarters and 180 employees to this new site, sparking a whole revitalization effort within the REO Town area of Lansing. The plant recently received recognition by the Pew Institute as one of the "cleanest and most efficient" energy facilities in the nation and "Best Project of the Year" by Engineering News-Record Midwest magazine.
- . The Sabori project is rehabilitating the former Heeb Building property and building a new \$3 million mixed use development in Lansing's Old Town.
- . The High Grade project will demolish a decades-old blighted building and silos in the City and construct a new, efficient \$2 million plant.

Lansing is an environment of high-growth and a good return on investment. Lansing is poised to benefit from the new generation of young people, entrepreneurs and new economy businesses who are now demanding an urban environment for living and working. Its economy is diverse; its work force creative.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2013. This was the 36th consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this comprehensive annual financial report was made possible by the dedicated service of the entire staff of the Finance Department, as well as support by other departments. All those who contributed to this document, especially Accounting Manager Randy Endsley, have our sincere appreciation for their contributions made in the preparation of this report and in the financial management of the City. The 36th consecutive GFOA award, recognizing their efforts, is well deserved indeed.

Sincerely,

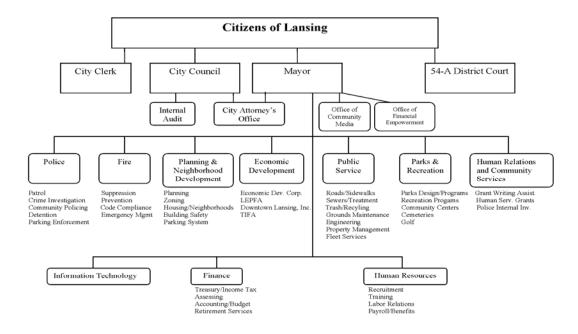

Virg Bernero

Mayor

INDEPENDENT AUDITORS' REPORT

December 19, 2014

Honorable Mayor and Members of the City Council City of Lansing, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Lansing, Michigan* (the "City"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Lansing, Michigan, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Implementation of GASB Statements No. 65 and 67

As disclosed in Note 19 to the financial statements, the City implemented the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB 65), in the current year. Implementation of GASB 65 revised classification of certain financial statement elements and eliminated the presentation of bond issuance costs as an asset. As a result of this change, beginning net position of governmental activities, business-type activities and discretely presented component units decreased by \$160,441, \$924,785 and \$143,468, respectively.

In addition, the City implemented the provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans* in the current year. While there was no effect on the amounts reported in the financial statements themselves, there were substantial changes to the disclosures found in Note 16 to the financial statements, including the calculation of the City's net pension liability, which will be required to be recorded by the City in its next fiscal year. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the schedules for the pension and other postemployment benefit plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued, under separate cover, our report dated December 19, 2014, on our consideration of the City of Lansing, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

The management of the City of Lansing, Michigan ("the City") provides this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2014 for the benefit of the readers of these financial statements. This management's discussion and analysis ("MD&A") is intended to assist the reader in focusing on significant financial issues and provide an overview of the City's financial activity. The City encourages the readers to consider the following information here in conjunction with the financial statements taken as a whole, which follow this section.

Financial Highlights

- Total government-wide assets and deferred outflows of resources of the City exceeded its liabilities at the close of the fiscal year by \$378.9 million (reported as net position), a decrease of \$4.3 million from fiscal year 2012/2013.
- · As of the close of the 2013/2014 fiscal year, the City's governmental funds reported combined ending fund balances of \$22.8 million, a \$3.6 million increase from fiscal year 2012/2013. Of the \$22.8 million fiscal year 2013/2014 combined ending fund balance, \$9.6 million is legally restricted and/or unavailable to spend (i.e. amounts tied up in inventories), and \$6.7 million is committed for designated projects, leaving \$6.5 million unassigned.
- At the end of the fiscal year, unassigned fund balance for the General Fund, (including the amount internally identified as a Budget Stabilization Fund), was \$7.1 million, an increase of \$1.4 million from FY 2012/13. Please see the "General Fund and Budgetary Highlights" section of this Management Discussion and Analysis for further detail.
- The business-type activities reported net position at year-end of \$261.1 million, an increase of \$5.4 million during the year.
- The City's total bonded and loaned debt was \$235.8 million at June 30, 2014, a decrease of \$12.1 million (or 4.9%), which represents the net difference between new issuances and payments. More detailed information regarding these activities and funds can be found in footnote 9, Long-Term Debt of the Notes to the Financial Statements section of the CAFR.

Overview of the Financial Statements

This MD&A is an introduction to the City's basic financial statements, which comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements. These statements include all non-fiduciary assets and liabilities but exclude assets and liabilities related to pensions. The Statement of Net Position and the Statement of Activities are two financial statements that report information about the City, as a whole, and about its activities, which provide measurements of long term trends that should help answer this question: Is the City, as a whole, better off or worse off as a result of this year's activities? Unlike the governmental funds, the current year's revenues and expenses are taken into account regardless of when cash is received or paid, known as "full accrual accounting".

The Statement of Net Position presents all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between the these categories reported as "net position". Over time, increases and decreases in net position are an indicator of whether the City's long term financial position is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Management's Discussion and Analysis

The Statement of Net Position and the Statement of Activities report three activities, as follows:

- Governmental Activities. Most of the City's basic services are reported under this category. Property taxes, income taxes, and intergovernmental revenues generally fund these services. The Council (legislative branch), the District Court (judicial branch), and general operations of the executive branch departments, such as police, fire, parks, public works, and staff departments fall within the governmental activities.
- Business-type Activities. The City charges fees to customers to help cover all or most of the costs of certain services it provides. Sewage collection and treatment and commercial area parking are examples of business-type activities.
- Discretely Presented Component Units. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The City has four such discretely presented units; the Lansing Entertainment and Public Facilities Authority, the Tax Increment Finance Authority, the Brownfield Redevelopment Authority, and the SmartZone.

These financial statements include two schedules that reconcile the amounts reported on the governmental fund financial statements (modified accrual accounting) with governmental activities (full accrual accounting) on the appropriate government-wide statements. The following summarizes the impact of transitioning from modified accrual to full accrual accounting:

- · Capital assets used in governmental activities are not reported on governmental fund statements.
- · Certain revenues that are earned, but not available for use within the reporting period, are reported as revenues for governmental activities, but are reported as deferred inflows of resources on the governmental fund statements.
- Other long-term assets that are not available to pay for current period expenditures are deferred in governmental fund statements, but not deferred on the government-wide statements.
- · Internal service funds are reported as governmental activities, but reported as proprietary funds in the fund financial statements.
- Bond discounts and premiums in the issuance of long term debt, are reported as expenditures in governmental fund statements, but are capitalized and amortized in the government-wide statements.
- Unless due and payable, long-term liabilities, such as capital lease obligations, compensated absences, litigation, and others only appear as liabilities in the government-wide statements.
- · Capital outlay spending in excess of capitalization thresholds are recorded as capital assets on the governmentwide statements, but are reported as expenditures on the governmental fund statements.
- Bond and note proceeds result in liabilities on the government-wide statements, but are recorded as other financing sources on the governmental fund statements.
- · Certain other outflows, such as debt service principal payments, represent decreases in liabilities on the government-wide statements, but are reported as expenditures on the governmental fund statements.

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Management's Discussion and Analysis

Fund Financial Statements. The City's Major Funds are identified as its General Fund, Sewage Disposal Fund, and it's Municipal Parking System Fund. Data for all other funds, termed "nonmajor funds", are combined into a single, aggregated presentation. A fund is a fiscal and accounting entity with a self-balancing set of accounts that the City uses to keep track of specific sources of funding and spending for a particular purpose.

- · Governmental funds. Most of the City's basic services are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for future spending. The governmental fund financial statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are greater or fewer financial resources that can be spent in the near future to finance the City's programs. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Governmental funds include the General Fund and special revenue, capital project, debt service, and permanent funds.
- Proprietary funds. When the City charges customers for the services it provides, whether to outside customers or
 to other agencies within the City, these services are generally reported in proprietary funds. Proprietary funds
 (enterprise and internal service) utilize full accrual accounting; the same method used by private sector
 businesses. Enterprise funds report activities that provide supplies and services to the general public. Examples
 are the Sewage Disposal Fund and the Municipal Parking Fund. Internal service funds are reported as
 governmental activities on the government-wide statements.
- Fiduciary Funds. The City acts as a trustee or fiduciary, for its employee pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The City's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These funds, which include pension and other employee benefit funds, are reported using full accrual accounting. The government-wide statements exclude fiduciary fund activities and balances because these assets are restricted in purpose and do not represent spendable assets of the City to finance its operations.

Additional Required Supplementary Information

Following the basic financial statements is additional Required Supplementary Information that further explains and supports the information in the financial statements. The Required Supplementary Information includes required pension and other postemployment benefit supplementary information.

Other Supplementary Information

Other supplementary information includes combining financial statements for nonmajor governmental, proprietary, and fiduciary funds. These funds are added together, by fund type, and presented in single columns in the basic financial statements, but are not reported individually, as with major funds, on the governmental fund financial statements.

Management's Discussion and Analysis

Government-Wide Financial Analysis

The City's combined net position decreased \$4.3 million over the course of this fiscal year's operations to a total of \$378.9 million. Net position of governmental activities decreased \$9.7 million or 7.6%, and business-type activities increased \$5.4 million or 2.1%. Explanations for those changes are described below under the Governmental Activities and Business-Type Activities sections of this Management Discussion and Analysis.

| | Net Position | | | | | |
|---------------------------------|-------------------------|---------------|--------------------------|---------------|----------------|----------------|
| | Governmental Activities | | Business-type Activities | | Total | |

| Restricted | 13,133,137 | 12,552,011 | 8,746,096 | 11,077,134 | 21,879,233 | 23,629,145 |
| Unrestricted | (46,344,555) | (39,467,672) | 37,891,053 | 31,943,581 | (8,453,502) | (7,524,091) |
| Total net position | \$117,764,592 | \$127,456,943 | \$261,095,990 | \$255,702,993 | \$ 378,860,582 | \$ 383,159,936 |

The largest component (96.5%) of the City's net position reflects its net investment in capital assets (e.g. land, buildings, equipment, infrastructure, and others). Restricted net position is the next largest component, which represents amounts subject to external restrictions such as bond covenants, City Charter, State legislation or Constitutional provision. The remaining portion, unrestricted net position are resources that may be used at the City's discretion, but often have limitations based on policy action.

Management's Discussion and Analysis

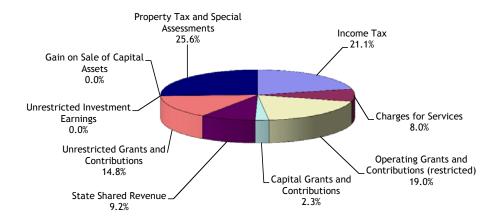

The following condensed financial information was derived from the government-wide Statement of Activities and reflects how the City's net position changed during the fiscal year:

| | Change in Net Position | | | | | |

Management's Discussion and Analysis

Governmental Activities. The following chart depicts revenues of the governmental activities for the fiscal year:

Revenues - Governmental Activities Fiscal Year Ending June 30, 2014

In total, Governmental Activity revenue increased \$3.8 million from FY 2012/2013 to FY 2013/2014, with trends of the major revenue categories as follows:

Property taxes and special assessments comprised the largest portion of Governmental Activity revenue at 25.6%, or \$38.1 million, a \$589,289, 1.5% decrease from fiscal year 2012/2013. The decrease was due to reductions in taxable values attributable to the recession and housing market.

Income taxes comprised 21.1%, or \$31.5 million, of Governmental Activity revenue, the full amount of which is revenue to the General Fund. This represents a \$1.6 million, 5.4%, increase from fiscal year 2012/2013. Local income tax rates are prescribed by State law, and limited in Lansing's case to 1% of resident income and 0.5% of the income of persons working in the City, but living outside of its corporate boundaries.

Restricted Operating and Capital Grants and Contributions made up \$31.6 million, or 21.2% of Governmental Activity revenue for fiscal year 2013/2014, a \$846,144 or 2.7% decrease from fiscal year 2012/2013. In this category, \$14.2 million are recurring revenues from: State Gas & Weight tax revenues restricted for streets; Community Development, HOME, and Emergency Shelter entitlement grants; and drug forfeiture funds restricted for drug enforcement efforts. The remaining \$17.4 million is attributable to non-entitlement grants. The decrease from FY 2012/2013 is the result of a reduction in non-entitlement grants with the conclusion of much of the federal ARRA grants.

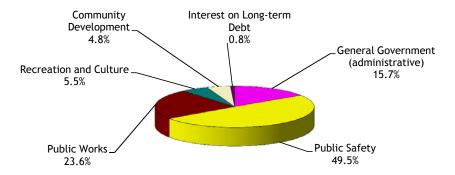

Unrestricted Grants and Contributions account comprised 24.0%, or \$35.7 million, of revenues, a \$4.3 million or 11.9% increase from fiscal year 2012/2013. A little more than one-third of this category, \$13.6 million, is attributed to State revenue sharing, an amount distributed to municipalities by the State of Michigan by formula allocation of portions of the State sales tax. Equity payments from the independently-managed-and-operated Board of Water and Light account for \$20.6 million of the category, with remaining \$1.5 million coming from payments from the State of Michigan for a payment in lieu of tax for its fire protection for its properties, bad driver revenues, and reimbursement of liquor license enforcement costs. A \$4.5 million increase in the equity payment from the Board of Water and Light accounted for the increase in unrestricted grants and contributions from FY 2012/2013 to FY 2013/2014.

Charges for Services are program-specific revenues generated for services provided. Governmental activity charges for services decreased \$591,345 from FY 2012/2013 to FY 2013/2014. The majority of the decrease is attributable to reimbursements received in FY 2012/2013 for road work due to work on underlying utilities.

Management's Discussion and Analysis

The following chart depicts expenses of the governmental activities for the fiscal year:

Expenses - Governmental Activities Fiscal Year Ending June 30, 2014

Total expenses for Governmental Activities decreased \$2.9 million from FY 2012/2013 to FY 2013/2014. The reduction is largely attributable to a reduction in non-entitlement grants and corresponding grant expenditures, which decreased \$9.0 million from fiscal year 2012/2013. That \$9.0 million decrease was offset by a \$7.3 million increase from FY 2012/2013 as a result of increased infrastructure and capital expenditures, and a \$1.2 million reduction in various other governmental activity expenditures. Departmental reorganizations accounted for differences in expenses from FY 2013/2013 to FY 2013/2014, with departmental divisions being moved from Community development to Public Safety, and Information Technology with the General Government category being moved to an internal service fund (therefore, funded by various funds).

Business-type Activities. Net position of the business-type activities increased by \$5.4 million during the fiscal year to \$261.1 million. The increase was mainly attributable to a \$2.2 million increase in parking service from a loan release and a \$3.0 increase in sewer system operations during the fiscal year which are necessary to fund the debt associated with the Combined Sewer Overflow (CSO) program in future years.

Financial Analysis of the City's Funds

As the City completed the fiscal year, its governmental funds reported combined ending fund balances of \$22.8 million. Of this, \$9.6 million is legally restricted and/or unavailable to spend (i.e. amounts tied up in inventories), and \$6.7 million is committed for designated projects, leaving \$6.5 million unassigned.

Management's Discussion and Analysis

General Fund Budgetary Highlights

The FY 2013/2014 budget was adopted as a balanced budget, based on projected revenues, without any use of reserves. The City budgeted a vacancy factor in its General Fund to account for anticipated positions that would become vacant during the course of the year. Because vacancies that will occur within each department can not be projected, the vacancy factor is budgeted as a single line item of the General Fund and allocated to various departments through a budget amendment during the year. During the course of the fiscal year, the budget was amended to allocate the vacancy factor, and to recognize projected increases in revenues, as well as additional expenditures required as the result of a severe winter, including a major ice storm that required debris collection across the City.

General Fund reserves, combined with the Budget Stabilization Fund (combined for financial statement purposes) increased \$0.5 million from FY 2012/2013 from \$8.7 million to \$9.2 million. However, \$906,216 of expenditures were from restricted (committed) reserves. As a result, unassigned fund balance increased \$1.4 million, or 25.2% from fiscal year 2012/2013. This \$1.4 million increase was attributable to General Fund expenditures and operating transfers ending the year less than budgeted, due largely to position vacancies.

The FY 2014/2015 budget, adopted at levels commensurate with projected decreases in property values and other revenue levels experienced in FY 2013/2014, is budgeted to increase unassigned reserves by \$500,000.

Sewage Disposal Fund

Net position increased \$3.0 million to \$237.9 million in FY 2014. Unrestricted net position increased \$3.1 million, from \$23.4 million to \$26.5 million. These increases were attributable to increases in sewer rates during the fiscal year which are necessary to fund the debt associated with the Combined Sewer Overflow (CSO) program in future years.

Municipal Parking Fund

The Municipal Parking Fund net position increased \$2.2 million, from \$17.1 million to \$19.3 million. Unrestricted net position increased \$2.6 million, from \$7.4 million to \$10.0 million. The increase was largely due to a \$1.7 million loan release.

Management's Discussion and Analysis

Capital Assets. At the end of the fiscal year 2014, the City had invested \$577.5 million, net of accumulated depreciation, in a broad range of capital assets (see the table below). Additional information regarding the City's capital assets can be found in Footnote 6 of the of the Notes to the Financial Statements section of the CAFR.

| | Capital Assets (Net of Depreciation) | | | | | |
|----------------------------|--------------------------------------|---------------|--------------------------|---------------|----------------|---------------|
| | Governmental Activities | | Business-type Activities | | Total | |
| | 2014 | 2013 | 2014 | 2013 | 2014 | 2013 |
| | | | | | | |
| Land | \$ 25,725,672 | \$ 25,690,735 | \$ 13,483,909 | \$ 13,483,909 | \$ 39,209,581 | \$ 39,174,644 |
| Land improvements | 9,140,079 | 8,565,261 | 11,907,987 | 12,179,183 | 21,048,066 | 20,744,444 |

| Construction in progress | 2,281,413 | 5,289,601 | 7,645,877 | 8,509,838 | 9,927,290 | 13,799,439 |
| Total capital assets, net | \$ 187,934,084 | \$192,940,938 | \$ 389,610,713 | \$397,911,962 | \$ 577,544,797 | \$590,852,900 |

Debt Administration. The City, along with the Lansing Building Authority (LBA), a blended component unit of the City, is empowered by law to authorize, issue, and sell debt obligations. Limited tax and unlimited tax general obligation bonds are backed by the full faith and credit of the City. The City also issues revenue-dedicated bonded debt, whose payment for principal and interest comes solely out of funds that receive legally-restricted revenues. The Sewage Disposal fund has the City's only dedicated revenue bonds currently outstanding. LBA's bonds financed the construction of parking, golf course, and firing range improvements. Revenues derived from user fees from persons using parking and golf facilities fund the debt service requirements for related improvements, but they are also backed by a limited tax pledge.

Management's Discussion and Analysis

| | Outstanding Debt | | |
|--------------------------------|------------------|----------------|--|
| | 2014 | 2013 | |
| Governmental activities | | | |
| General obligation bonds | \$ 27,145,000 | \$ 29,932,000 | |

| For issuance discounts | (782,377) | (2,020,876) | |
| For issuance premiums | 2,511,390 | 2,751,555 | |
| Total business-type activities | 201,061,383 | 210,324,829 | |
| | <u> </u> | <u> </u> | |
| Total outstanding debt | \$ 254,629,643 | \$ 266,655,459 | |

The City procured a \$986,300 loan from the State of Michigan for street and bridge repairs and entered into a \$1.5 million installment purchase agreement for trucks, both of which are categorized as Governmental activity debt. The City also issued \$3.4 million in State revolving loan fund debt for the City's Wet Weather (formerly Combined Sewer Overflow/Sanitary Sewer Overflow) environmental program in the sewer (proprietary) fund, as well as a \$1.7 million installment purchase contract for recycling carts, both of which are considered Business-type activity debt. Under special legislation from the State of Michigan, a restructuring of bonds associated with the parking system and tax increment financing district occurred, resulting in a net increase of \$2.2 million in general obligation Business-type activity debt. During the year, a \$1.7 million loan was released, which was also categorized as Business-type activity debt. Reductions in the other categories listed above are due debt payments made during the course of the fiscal year. More detailed information regarding these activities and funds can be found in Footnote 9 of the of the Notes to the Financial Statements section of the CAFR.

Economic Condition and Outlook

Emerging from the Great Recession, Lansing's property values, upon which General Fund property taxes are based, have stabilized, and income taxes have strengthened. Indeed, the 2013/2014 fiscal year resulted in a \$1.4 million addition to General Fund unassigned reserves. Lansing's financial picture as a whole has stabilized, but significant challenges remain. Revenue shortfalls during the recession resulted in significant drawdown on its General Fund reserves. While the fiscal year 2013/2014 results improved reserve levels, Lansing's reserve levels are still low. Going forward, State limitations on property tax growth will continue to constrain resources, and pension, healthcare, and infrastructure funding needs continue to significant budgetary challenges.

Management's Discussion and Analysis

The City continues strategies implemented by Mayor Virg Bernero during the Recession to address these challenges: maximizing revenues; reducing expenses; improving operational and technological efficiencies; consolidating like functions; pursuing regional collaboration and partnerships for services; working with the City's workforce and labor unions to contain the rising cost of healthcare, pension, and other compensation costs, both now and into the future; and continuing work with the Financial Health Team appointed by the Mayor in 2012 to identify both short-term and long-term strategies to strengthen Lansing, as well as the metropolitan Lansing region.

Strengthening the City's economic base and building back up General Fund reserves to pre-Recession levels are top priorities. Accordingly, in addition to fiscal year 2013/2014 results, the City has implemented a new General Fund balance policy in order to build back reserves starting with fiscal year 2014/2015 budget, and conservative revenue projections are anticipated to further the addition to reserves by the end of the fiscal year. In terms of economic development, even during the Recession, which included a historic credit crisis in the private sector, the City has seen significant economic development announcements (see Economic Condition and Outlook in the Transmittal Letter) that have received national recognition; those efforts have had continued success.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Copies of this financial report, as well as other financial reports, are available on the City's website, www.lansingmi.gov. If you have any questions about this report or need additional financial information, please feel free to contact the Finance Department at (517) 483-4500.

FUND FINANCIAL STATEMENTS

This page intentionally left blank.

Governmental Fund Financial Statements

Major Funds

The General Fund is the general operating fund of the City. It is used to account for and report all financial resources not accounted for and reported in another fund.

Nonmajor Funds

Nonmajor governmental funds are presented, by fund type, beginning on the pages listed below: Special revenue funds, page 130.

Debt service funds, page 142.

Capital projects funds, page 146.

Permanent funds, page 152.

Reconciliation

Fund Balances of Governmental Funds to Net Position of Governmental Activities June 30, 2014

Fund balances - total governmental funds

22,763,920

Amounts reported for *governmental activities* in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

| Capital assets not being depreciated | 28,007,085 |
|-------------------------------------------------------------|--------------|
| Capital assets being depreciated, net | 159,926,999 |
| Capital assets accounted for in internal service funds, net | (13,326,936) |

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current expenditures. Those assets (i.e., receivables) are offset by deferred inflows of resources in the governmental funds and, therefore, are not included in fund balance.

| Deferred ambulance fees receivable | 1,006,779 |
|---------------------------------------------------------|-----------|
| Deferred nuisance fees receivable | 583,808 |
| Deferred loans receivable | 1,232,342 |
| Deferred long-term interest receivable | 2,147,867 |
| Deferred long-term special assessments receivable | 444,596 |
| Deferred long-term taxes and tax settlement receivables | 62,135 |

Internal service funds are used by management to charge the costs of certain equipment maintenance to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

8,200,789

Long-term liabilities and related deferred outflows are not due and payable in the current period and therefore are not reported in the funds.

| Bonds, loans and leases payable | (31,127,222) |
|------------------------------------------------------|--------------|
| Deferred loss on refunding | 194,713 |
| Accrued interest on bonds, loans and leases payable | (134,197) |
| Net pension obligation | (246,093) |
| Net other postemployment benefit obligation | (46,563,797) |
| Compensated absences and other long-term liabilities | (15,408,196) |

Net position of governmental activities \$ 117,764,592

Reconciliation

Net Changes in Fund Balances of Governmental Funds to Change in Net Position of Governmental Activities For the Year Ended June 30, 2014

Net change in fund balances - total governmental funds

\$ 3,613,498

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

| Capital assets purchased/constructed | 7,007,813 |
|--------------------------------------|--------------|
| Depreciation expense | (13,736,351) |
| Loss on sale of capital assets | (1,235,003) |
| Proceeds on sale of capital assets | (167,737) |

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred to subsequent fiscal years.

| evenues in the rands, but rather are deterred to subsequent riseat years. | |
|---------------------------------------------------------------------------|-------------|
| Change in deferred ambulance fees receivable | (1,153,346) |
| Change in deferred nuisance fees receivable | (31,679) |
| Change in deferred loans receivable | (1,927) |
| Change in deferred long-term interest receivable | 69,250 |
| Change in deferred special assessments receivable | (97,774) |
| Change in deferred taxes and tax settlement receivables | (26,001) |

Internal service funds are used by management to charge the costs of certain equipment maintenance to individual funds. The net increase (decrease) in the net position of the internal service funds is reported with governmental activities.

| Net operating loss from governmental activities in internal service funds | (651,257) |
|---------------------------------------------------------------------------|-----------|
| Loss on sale of capital assets from governmental internal service funds | 345,736 |
| Interest expense from governmental internal service funds | (186,980) |
| Transfers in from governmental internal service funds | 1,620,000 |

Debt proceeds provide current financial resources to governmental funds in the period issued, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the funds, but the repayment reduces long-term liabilities in the statement of net position.

| Issuance of long-term debt | (986,300) |
|---------------------------------------------|-----------|
| Principal payments on long-term liabilities | 3,485,104 |

Certain expenditures are reported in governmental funds that reduce long-term liabilities for purposes of the statement of net position.

Change in estimated liability for workers' compensation 1,018,469

Some expenses reported in the statement of activates do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

| Change in accrued interest payable on long-term liabilities | 32,957 |
|--------------------------------------------------------------------------------|-------------|
| Amortization of issuance premiums and discounts, and deferred refunding losses | (1,538) |
| Change in net other postemployment benefit obligation | (8,755,530) |
| Change in net pension obligation | (2,965) |
| Change in the accrual for compensated absences | 97,049 |
| Change in the accrual for tax settlement agreement | 52,161 |

Change in net position of governmental activities \$ (9,692,351)

Fiduciary Fund Financial Statement

Pension and Other Postemployment Benefit Trust Funds - Employee pension and other postemployment benefit trust funds accept payments made by the City, invest fund resources, calculate and pay pensions to retirees (or beneficiaries), and account for postemployment healthcare coverage.

Combining schedules for fiduciary funds are presented in the notes to the financial statements.

Agency Funds - These funds account for resources held in a trustee or agent capacity for the 54-A District Court.

Combining statements for agency funds are presented, by fund type, beginning on page 168.

COMPONENT UNITS

This page intentionally left blank.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City but for which the City is financially accountable, or their relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The City has four discretely presented component units:

Brownfield Redevelopment Authority
Tax Increment Finance Authority
Lansing Entertainment and Public Facilities Authority
SmartZone

Complete financial statements for each of the individual component units, excluding SmartZone, may be obtained from the entity's administrative offices. Separately-issued financial statements are not prepared for the SmartZone.

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Lansing (the "City") was incorporated in 1859. In 1909, the City came under the provisions of Act 279, P.A. 1909, as amended ("Home Rule City Act"). The City operates under a strong Mayor form of government in which the Mayor is responsible for implementation and administration of City policy as established by City Council.

The accounting and reporting policies of the City conform in all material respects to generally accepted accounting principles (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). Following is a summary of the significant policies:

Reporting Entity

As required by generally accepted accounting principles, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The financial data of the component units are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

Blended Component Unit

A blended component unit is a legally separate entity from the City but is so intertwined with the City that it is, in substance, the same as the City. It is reported as part of the City and its financial data is combined with data of the appropriate funds. The City has one blended component unit, the Building Authority with a fiscal June 30 year-end. This component unit provides services primarily to benefit the City. The blended unit is described as follows:

The Building Authority (the "Authority") was established by the City under Act 31, Michigan Public Acts of 1948. The Mayor, with the advice and consent of City Council, appoints the Authority's governing body and designates management. The Authority uses the proceeds of its tax-exempt bonds to finance the construction or acquisition of capital assets for the City only. The bonds are secured by lease agreements with the City and will be retired through lease payments from the City. The financial activity, assets, liabilities and equity of the Authority are incorporated within the City's Municipal Parking System and Golf enterprise funds, and the 1998 Building Authority Debt Service Fund.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City but for which the City is financially accountable, or their relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The City has four discretely presented component units, the Brownfield Redevelopment Authority, the Tax Increment Financing Authority, the Lansing Entertainment and Public Facilities Authority, and the Smart Zone, each with a fiscal June 30 year-end. The discretely presented component units are as follows:

Notes to Financial Statements

The Lansing Brownfield Redevelopment Authority ("LBRA") was established by the City on August 17, 1997, under the authority contained in Act 381, Michigan Public Acts of 1996 (the "Act"). The Act authorizes the City to establish and to designate the boundaries of a Brownfield redevelopment zone. The Brownfield Redevelopment Authority is appointed by City Council to preside over such a zone, and it is authorized to promote the revitalization of environmentally distressed areas within the City of Lansing. The Act allows the LBRA to participate in a broad range of improvement activities intended to encourage the reuse of industrial and commercial property by offering economic incentives for redevelopment to prevent property value deterioration. Tax increment financing plans must be approved by the City.

Tax increment financing permits the LBRA to capture tax revenues which are attributable to increases in the value of real and personal property located within an approved project area. Current activities of the LBRA include collections of property tax revenues on project areas for the Rite Aid Pharmacy and the former Motor Wheel Site Plant.

The Tax Increment Finance Authority ("TIFA") was established by the City under the authority contained in Act 450, Michigan Public Acts of 1981 ("Act 450"). Act 450 authorizes the City to designate specific districts within its corporate limits as TIFA districts. The TIFA presides over such districts, formulating plans for public improvements, economic development, neighborhood revitalization, and historic preservation within the districts. Act 450 allows the TIFA to participate in a broad range of improvement activities intended to contribute to economic growth and prevent property value deterioration. The TIFA's governing body is appointed by the Mayor with the advice and consent of the City Council. Bond issuances, to fund the above activities, are approved by the City Council and the legal liability for the debt remains with the City.

The Lansing Entertainment and Public Facilities Authority ("LEPFA") was established under the charter of the City of Lansing in February 1996, replacing the former Greater Lansing Convention/Exhibition Authority, which had been responsible for operating and managing the Lansing Center and the Lansing Civic Arena (the latter through the fiscal year ended June 30, 1995). LEPFA was established to oversee the management and operations of the Lansing Center, the City Market and the Cooley Law School stadium.

LEPFA is chartered as a building authority under the provisions of Act 31, Public Acts of Michigan, 1948. In the event of dissolution or termination of LEPFA, all assets and rights of the Authority shall revert to the City. LEPFA's Board of Commissioners consists of thirteen members appointed by the Mayor of the City of Lansing and approved by the City Council.

The Lansing Regional SmartZone ("SmartZone") was established by the City of Lansing and the City of East Lansing under the authority contained in Act 281, Public Act of Michigan of 1986 ("Act 281"). Act 281 authorizes the Cities to create a multi-jurisdictional local development finance authority. The SmartZone shall be known and exercise its powers under title of the Local Development Finance Authority of the Cities of Lansing and East Lansing. The SmartZone is fiscally dependent on the City of Lansing; the City approves the annual budget and is responsible for managing the SmartZone. The SmartZone was created in order to eliminate the conditions of unemployment, underemployment and joblessness, and to promote economic growth in the City. The SmartZone's Board of Commissioners consists of seven members, three of which are appointed by the City of Lansing, three are appointed by the City of East Lansing, and one is appointed by the Ingham County Board of Commissioners.

Notes to Financial Statements

Component Unit Financial Statements

Complete financial statements for the individual component units may be obtained from each entity's administrative offices. Separate financial statements are not prepared for the SmartZone.

City of Lansing Building Authority 8th Floor 124 West Michigan Avenue Lansing, Michigan 48933

Brownfield Redevelopment Authority / Tax Increment Finance Authority 1000 S Washington Avenue, Suite 201 Lansing, Michigan 48910

Lansing Entertainment and Public Facilities Authority 333 East Michigan Avenue Lansing, Michigan 48933

Government-Wide and Fund Financial Statements

The government wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Notes to Financial Statements

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers all revenues reported in the governmental funds to be available if they are collected within three months after year-end, except for income taxes that use a 45-day collection period, property taxes that use a 60-day collection period, and reimbursement-based grants that use one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and as such have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental fund:

General fund. This fund is the City's primary operating fund. It accounts for all the financial resources of the primary government, except those accounted for and reported in another fund.

The City reports the following major enterprise funds:

Sewage Disposal System Fund. This fund accounts for the provision of sewage disposal services to the residents of the City.

Municipal Parking System Fund. This fund accounts for the operation of City-owned parking facilities.

Additionally, the City reports the following fund types:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects that comprise, or are expected to comprise a substantial portion of the fund's total reported inflows.

Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal, interest and related costs.

Notes to Financial Statements

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Permanent funds account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs.

Enterprise funds account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Internal service funds account for operations that provide services to other departments or agencies of the City, or to other governments, on a cost-reimbursement basis. This includes operating a maintenance facility for trucks and equipment used by the Public Service Department, health care and self-insurance services, and information technology.

Pension and other postemployment benefit trust funds account for the accumulation of resources to be used for retirement annuity payments to eligible full-time employees of the City, certain healthcare costs, and other retirement distributions.

The agency fund account for resources held in a trustee or agent capacity for the 54-A District Court.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Restricted net position are assets that are subject to restrictions beyond the government's control. The restrictions may be externally imposed or imposed by law. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Notes to Financial Statements

Assets, deferred outflows of resources, liabilities, deferred inflows of resources, and equity

Deposits and investments

The City maintains an investment pool for all City funds. Each fund's portion of the investment pool is displayed on the statement of net position/balance sheet as "equity in pooled cash." The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Restricted cash consists of amounts required to be maintained separately in accordance with bond covenants.

State statutes authorize the City to invest in:

Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.

Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.

Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.

Bankers' acceptances of United States banks.

Obligations of the State of Michigan and its political subdivisions, that, at the time of purchase are rated as investment grade by at least one standard rating service.

Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.

External investment pools as authorized by Public Act 20 as amended through December 31, 1997.

Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

Unrealized appreciation or depreciation on pension and other postemployment benefit trust fund investments due to changes in fair value are recognized each year.

Notes to Financial Statements

Receivables and payables

All trade and delinquent property tax receivables are shown net of an allowance for uncollectibles, as applicable.

Certain receivables in governmental funds consist of rehabilitation and redevelopment loans that are generally not expected or scheduled to be collected in the subsequent year.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either interfund receivables/payables (i.e., the current portion of interfund loans) or advances to/from other funds (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds. Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as internal balances.

Inventories, prepaids and other assets

All inventories are valued at cost using the first-in/first-out method. Inventories of governmental funds are recorded as expenditures when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items acquired or constructed since June 30, 1980), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets that are used for governmental activities are only reported in the government-wide statements. Infrastructure ("public domain") assets, including roads, bridges, sanitary sewers, drains, curbs, and gutters are capitalized. With this measurement focus, all assets and liabilities (whether current or noncurrent) associated with the operations of these funds are included on the government-wide statement of net position.

All land and non-depreciable land improvements are capitalized, regardless of cost. Equipment and vehicles are capitalized when the cost of individual items exceed \$5,000. The road and sewer networks are all capitalized regardless of cost. Buildings are capitalized over \$100,000, and the recreational facilities' thresholds range from \$25,000 to \$50,000.

Notes to Financial Statements

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives:

| | Years |
|-----------------|-------|
| Buildings | 20-50 |
| Improvements | 8-50 |
| Equipment | 3-15 |
| Sanitary sewers | 50 |
| Infrastructure | 10-75 |

Deferred outflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to one or more future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The City only has one item that qualifies for reporting in this category, which is the deferred refunding loss. A deferred refunding loss results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and compensatory time benefits, subject to certain limitations. Certain bargaining unit employees are also permitted to accumulate earned but unused sick leave. All vacation and compensatory time pay and 50 percent of sick leave are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long term debt and other long term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, are deferred and amortized over the life of the bonds using the straight-line basis. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to Financial Statements

Deferred inflows of resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds also report unavailable revenues, which arise only under a modified accrual basis of accounting that are reported as deferred inflows of resources. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Fund balances

Governmental funds report *nonspendable fund balance* for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. *Restricted fund balance* is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. *Committed fund balance* is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the City Council. A formal resolution of the City Council is required to establish, modify, or rescind a fund balance commitment. The City reports *assigned fund balance* for amounts that are constrained by the government's *intent* to be used for specific purposes, but are neither restricted nor committed. The City currently has no assigned fund balance, as the City Council has not yet given the authority for the making of such assignments. Unassigned fund balance is the residual classification for the general fund.

When the City incurs an expenditure for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed fund balance, assigned fund balance, and finally unassigned fund balance.

Notes to Financial Statements

2. BUDGETARY INFORMATION

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before the fourth Monday in March, the Mayor submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- A public hearing on the proposed use of funds is held by the Mayor, and a public hearing on the annual appropriations as proposed by the City Council is held no later than one week prior to adoption of the annual appropriation measure.
- Not later than the third Monday in May, the Council adopts a budget for the ensuing fiscal year, makes an
 appropriation of the money needed therefore, and sets the property tax rate necessary to support the
 appropriations measure.
- The appropriated budget is prepared by fund, department and the mandatory expenditure accounts as established by the State of Michigan's Uniform Chart of Accounts. Within the General Fund, the legal level of budgetary control is the mandatory expenditure accounts (personal services, supplies and operating expenses, capital outlay, debt service, transfers, and contingency) within each department. Within other funds, the legal level of budgetary control is the mandatory expenditure accounts (personal services, supplies and operating expenses, capital outlay, debt service, transfers, and contingency) within that fund. Transfers between appropriations (mandatory accounts) require City Council approval. An exception to City Council approval is allowed by City Charter for transfers between appropriations (mandatory accounts) for amounts less than five thousand dollars, but not in excess of 15% of the appropriation in cases where five thousand dollars exceeds 15% of the appropriation.

Copies of the City's separately issued budget report may be obtained from the Finance Department, 124 West Michigan Avenue, Lansing, Michigan 48933.

- · The City formally adopts operating budgets for the general fund and all special revenue funds.
- Budgetary integration is employed as a management control device during the year for all budgeted funds.
 Except for the general fund, these budgets are adopted on a basis consistent with generally accepted accounting principles ("GAAP"). In the general fund, capital lease payments / installment payments are budgeted, but capital lease acquisitions are not. There were no capital lease acquisitions during the year ended June 30, 2014.
- · Appropriations lapse at year-end for all annual budgets. Appropriations are automatically carried forward for project-type budgets.

Notes to Financial Statements

P.A. 621 of 1978, as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated. During the year ended June 30, 2014, the City incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

| | App | Total propriations | Amount of Expenditures | | Budget Variance |
|--------------------------------------|-----|--------------------|------------------------|------------|--------------------|
| General fund: | | | | | |
| General government: | | | | | |
| Mayor | \$ | 819,940 | \$ | 826,471 | \$ 6,531 |
| Office of community media | | 336,680 | | 336,702 | 22 |
| Planning / neighborhood development | | 854,984 | | 961,187 | 106,203 |
| Public works | | 9,801,661 | | 10,095,380 | 293,719 |
| Recreation and culture | | 7,135,872 | | 7,741,209 | 605,337 |
| Other functions: | | | | | |
| Human relations / community services | | 878,162 | | 926,388 | 48,226 |
| Transfers out | | 9,439,986 | | 9,503,151 | 63,165 |
| State and federal grants: | | | | | |
| Public works | | 528,059 | | 3,361,393 | 2,833,334 |

The above budgeted amounts are presented at the activity level, which is the required minimum level of control per the Michigan Uniform Budget Manual.

The budget variance in the state and federal grants fund was caused by recording donated infrastructure (constructed by the State of Michigan Department of Transportation) in the fund. This transaction included both intergovernmental revenue and expenditures (and so had no effect on ending fund balance), but was not reflected in the amended budget, as it was attributable to amounts recorded for in-kind roadwork performed by the State, and therefore not subject to appropriation.

3. DEFICIT FUND EQUITY

Governmental activities reported a deficit in unrestricted net position in the amount of \$46,344,555 at June 30, 2014. Total net position amounted to a positive \$117,764,592.

The community development block grant program special revenue fund reported a deficit unassigned fund balance of \$200,000. Total fund balance (which included \$200,000 classified as restricted related to a long-term advance), was \$0.

The special assessments capital projects fund reported a deficit fund balance of \$322,157. The fund received a long-term advance from the general fund that was used to provide the working capital for the fund in prior years. The deficit is the result of deferred special assessments receivable. As special assessments are collected, this deficit will be eliminated, and the advance repaid.

The golf enterprise fund reported a deficit in unrestricted fund net position of \$6,077.

The fleet maintenance internal service fund reported a deficit in unrestricted fund net position of \$44,547.

Notes to Financial Statements

The Tax Increment Finance Authority component unit reported a deficit in unrestricted net position of \$36,582,317 at June 30, 2014. The deficit is a result of full-accrual accounting for long-term debt, without reflecting a corresponding receivable for tax captures to be received in future periods (which cannot be accrued in accordance with generally accepted accounting principles).

4. DEPOSITS AND INVESTMENTS

Following is a reconciliation of deposit and investment balances for the primary government (including both pooled cash and investments as well as pension and other postemployment benefit (OPEB) trust fund balances) as of June 30, 2014:

| | Primary Government | Component Units | Totals |
|--------------------------------------------|-----------------------|--------------------|----------------|
| Statement of net position | | | |
| Cash and investments | \$ 41,777,072 | \$ 2,303,169 | \$ 44,080,241 |
| Restricted cash and investments | 9,649,979 | 1,736,241 | 11,386,220 |
| Statement of fiduciary net position | | | |
| Pension and OPEB trust funds: | | | |
| Cash and cash equivalents | 46,678,018 | - | 46,678,018 |
| Investments | 515,186,363 | - | 515,186,363 |
| Agency funds: | | | |
| Equity in pooled cash | 91,410 | - | 91,410 |
| | | | |
| Total | \$ 613,382,842 | \$ 4,039,410 | \$ 617,422,252 |
| Deposits and investments | | | |
| Bank deposits: | | | |
| Checking/savings accounts | | | \$ 99,978,655 |
| Investments - money markets | | | 612,776 |
| Investment in securities and mutual funds: | | | , |
| Pooled investments | | | 1,470,793 |
| Pension and OPEB investments | | | 515,186,363 |
| Cash on hand | | | 173,665 |
| - | | | |
| Total | | | \$ 617,422,252 |

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned. State law does not require and the City does not have a policy for deposit custodial credit risk. As of year-end, \$95,390,534 of the City's bank balance of \$96,730,675 was exposed to custodial credit risk because it was uninsured and uncollateralized.

The City's investment policy does not specifically address this risk, although the City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution with which it deposits City funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Notes to Financial Statements

Custodial Credit Risk - Investments. As of June 30, 2014, the City's pooled investments consisted entirely of mutual funds and money markets totaling \$1,251,208 and \$219,585, respectively.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the City does not have a policy for investment custodial credit risk. On the investments listed above, there is no custodial credit risk, as these investments are uncategorized as to credit risk.

Credit Risk. State law limits investments to specific government securities, certificates of deposit and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments in the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on investment credit risk. Credit risk ratings, where applicable, are summarized as follows:

| S&P AAAm S&P A1 (Commercial Paper) Unrated | \$ 251,618 999,590 219,585 |
|--------------------------------------------------|-------------------------------------|
| Total | \$ 1,470,793 |

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Maturity dates for investments held at year-end are summarized as follows:

| Due within 1 year | \$ 999,590 |
|-------------------|-----------------|
| No maturity | 471,203 |
| | |
| Total | \$ 1,470,793 |

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments in the summary of significant accounting policies. The City's investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year end are reported above.

Pension and Other Postemployment Benefit Trust Funds

The deposits and investments of the City's pension and other postemployment benefit trust funds are maintained separately from the City's pooled cash and investments, and are subject to separate investment policies and State statutes. Accordingly, the required disclosures for the pension and OPEB deposits and investments are presented separately.

Notes to Financial Statements

Deposits

The pension and OPEB trust funds do not maintain any checking or other demand/time deposit accounts. Amounts reported as cash and cash equivalents in the statement of plan net position are composed entirely of short-term investments in money market accounts.

Investments

The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1965, as amended, authorizes the pension trust funds to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The retirement boards have the responsibility and authority to oversee the investment portfolio. Various professional investment managers are contracted to assist in managing the pension trust funds' assets. All investment decisions are subject to Michigan law and the investment policy established by the retirement boards.

Notes to Financial Statements

The investments of each pension trust fund are held in a bank administered trust fund. Following is a summary of pension and other postemployment benefits investments as of June 30, 2014:

| | Employees' Retirement System | Police and Fire Retirement System | Employees' Money Purchase Pension Plan | Retiree Health Care VEBA | Totals |
|--------------------------------------|-------------------------------------|-----------------------------------------|----------------------------------------------|--------------------------------|-----------------------------------------|

Notes to Financial Statements

Credit Risk. The City's pension investment policies provide that at least 90% of its investments in fixed income securities be rated BBB- or better by a nationally recognized statistical rating organization and the remaining 10% be rated at least B- or better. The City's pension and other postemployment benefits investments were rated by Standard & Poor's as follows:

| | Employees' Retirement | | , , | | | Employees' Money Purchase | | | Retiree lealth Care | | | |
|--------------------------|--------------------------|-------------|-----|-------------|--------------|---------------------------|------|------------|------------------------|-------------|--|--|
| | | System | | System | Pension Plan | | VEBA | | | Totals | | |
| AA | \$ | 2,474,496 | \$ | 3,644,864 | \$ | - | \$ | - | \$ | 6,119,360 | | |
| BBB | | 20,401,605 | | 29,145,150 | | - | | - | | 49,546,755 | | |
| US government guaranteed | | 21,979,588 | | 26,730,756 | | _ | | _ | | 48,710,344 | | |
| Not rated | | 25,332,527 | | 32,605,430 | | - | | 8,952,599 | | 66,890,556 | | |
| Assets not subject | | | | | | | | | | | | |
| to credit risk | | 121,737,726 | | 210,088,742 | | 1,955,525 | | 10,137,355 | | 343,919,348 | | |
| | \$ 1 | 191,925,942 | \$ | 302,214,942 | \$ | 1,955,525 | \$ | 19,089,954 | \$ | 515,186,363 | | |

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's pension investment policies require that investment securities be held in trust by a third-party institution in the name of the pension trust fund. As such, although uninsured and unregistered, the City's pension investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in the name of the pension trust fund. Short-term investments in money market funds and open-end mutual funds are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book form.

Concentration of Credit Risk. At June 30, 2014, the pension and other postemployment benefits investment portfolio was concentrated as follows:

| Investment Type | Issuer | Employees' Retirement System | Police and Fire Retirement System |
|--------------------------------------|---------------------------|------------------------------------|-----------------------------------------|
| Common stock | Northern Trust Back, N.A. | 14.5% | 14.8% |
| Corporate bonds International equity | Western Asset Funds, Inc. | 13.1% | 11.0% |
| mutual funds International equity | Franklin Templeton | 10.6% | 9.6% |
| mutual funds International equity | SEI Trust Company | 7.0% | 0.0% |
| mutual funds International equity | Modrian | 0.0% | 8.1% |
| mutual funds | Artisan | 0.0% | 7.9% |

The City's pension and other postemployment benefits investment policies require diversification of fixed income securities; however, they do not specify percentages of dollar amounts by industry or issuer.

Notes to Financial Statements

Foreign Currency Risk. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The pension and other postemployment benefits trusts' exposure to foreign currency risk is as follows:

| Investment (currency in U.S. dollar) | Employees' etirement System | lice and Fire etirement System | Mor | mployees' ney Purchase ension Plan | Н | Retiree ealth Care VEBA | Totals |
|-----------------------------------------|-----------------------------------|--------------------------------------|-----|------------------------------------------|----|-------------------------------|-------------------|
| | | | | | | | |
| International equities: | | | | | | | |
| Canada | \$ 489,030 | \$ 739,632 | \$ | - | \$ | - | \$ 1,228,662 |
| India | 104,704 | 153,996 | | - | | - | 258,700 |
| The Netherlands | 120,702 | 188,068 | | - | | - | 308,770 |
| Puerto Rico | 121,394 | 191,787 | | - | | - | 313,181 |
| Switzerland | 63,371 | 99,583 | | - | | - | 162,954 |
| United Kingdom | 91,431 | 156,503 | | - | | - | 247,934 |
| Foreign government bonds: | | | | | | | |
| Egypt | 146,869 | 314,720 | | - | | - | 461,589 |
| International equity | | | | | | | |
| mutual funds | 50,249,311 | 89,199,859 | | 106,500 | | 577,092 | 140,132,762 |
| | · | · | | | | | |
| Total | \$ 51,386,812 | \$ 91,044,148 | \$ | 106,500 | \$ | 577,092 | \$ 143,114,552 |

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. The City's pension investment policies provide that the average duration of fixed income securities shall not deviate from the Lehman Brothers Aggregate Index duration by +/-20%. As of June 30, 2014, maturities of the City's pension and other postemployment benefits trust debt securities were as follows:

| | Investment Maturities (Fair Value) | | | | | | | | | | |
|--------------------------------------------------------------|------------------------------------|----------|----|-----------|------------|-----------|----------|------------|----|------------|--|
| | Le | ess than | | | More than | | | | | | |

Securities Lending. Under contracts approved by the City, the pension and other postemployment benefits trust funds are permitted to lend their securities to broker-dealers and banks (borrowers) for collateral that will be returned for the same securities in the future. The pension trust and other postemployment benefits funds' custodial banks manage the securities lending programs and receive cash as collateral. Collateral cash is initially pledged at 100 percent of the fair value of the securities lent, and may not fall below 95 percent of the market value of the loaned security during the term of the loan. At all times, collateral cannot be more than \$100,000 less than the market value of the loaned security. There are no restrictions on the amount of securities that can be loaned.

Securities on loan at year-end are classified in the preceding schedule of custodial credit risk according to the category for the collateral received on the securities lent. At year-end, the pension trust funds have no credit risk exposure to borrowers because the collateral held by the custodians exceeds the market value of the related securities lent. At June 30, 2014, the fair value of securities on loan by the Employees' Retirement System and the Police and Fire Retirement System were \$19,518,097 and \$23,599,897, respectively, for which the Plans' received cash collateral of \$19,932,018 and \$24,105,140, respectively. The contract with the pension and other postemployment benefits trust fund custodians require them to indemnify the City if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the City for income distributions by the securities' issuers while the securities are on loan.

8. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2014, was as follows:

Due to and from primary government funds

| | Due from Other Funds | | Dı | ue to Other Funds |
|-------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|---------------------------------------------------|----|-----------------------------------------------------------------|
| General fund Nonmajor governmental funds Sewage disposal system Municipal parking system Nonmajor enterprise funds Internal service funds | \$ | 6,390,868 4,055,000 18,385,874 3,258,021 | \$ | 20,613,895 3,780,000 6,385,597 - 5,271 1,305,000 |
| Total | \$ | 32,089,763 | \$ | 32,089,763 |

The above balances generally resulted from a time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

1,059,742

1,144,434

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Notes to Financial Statements

9. LONG-TERM DEBT

General obligation bonds. The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds are issued as 10 to 30-year serial bonds with varying amounts of principal maturing each year. General obligation bonds currently outstanding are as follows:

| | Interest Rate | Original Amount | | Amount |
|-------------------------------------------------------|------------------|--------------------|------------|------------------|
| General obligation bonds | | | | |
| Governmental activities: | | | | |
| 2006 Lansing Center Limited Tax Bonds | 3.50-4.30% | \$ | 4,000,000 | \$ 2,330,000 |

| 2014 Building Authority Refunding Bonds | 4.75% | 7,245,000 | 7,245,000 |
| | | \$ 267,819,682 | \$ 175,033,286 |

On April 9, 2014, the City issued \$3,375,000 of Limited Tax General Obligation bonds under the state drinking water revolving fund to be used for sanitary sewer system improvements. Payments of amounts drawn are to be made semi-annually over a 20 year period, beginning on April 1, 2016. Interest is charged on the outstanding balance at 2.50 percent. As of June 30, 2014, no amounts had been drawn on this loan.

Refunded and Defeased Debt

At year end, defeased bonds outstanding consisted of \$4,140,000 of 1990 Building Authority Bonds, scheduled to be paid by the escrow agent on June 1, 2015; \$10,415,000 of 1990 Tax Increment Finance Authority Bonds, scheduled to be paid by the escrow agent in installments on May 1 of years 2016 through 2020; and \$2,565,000 in 1994 Tax Increment Financing Bonds, scheduled to be paid by the escrow agent on May 1 of years 2015 and 2016.

Notes to Financial Statements

During fiscal year 2014, the City advance refunded \$4,975,000 of 1990 Building Authority Bonds to provide resources to purchase U.S. government securities that were placed in an escrow fund for the purpose of generating resources for all future debt service payments of \$4,975,000 of refunded debt. As a result, the bonds are considered defeased and the liability has been removed from the statement of net position. The reacquisition price of the refunding bonds was less than the carrying amount of the refunded debt and remaining unamortized discount by \$1,156,324 and, accordingly, that amount is being amortized over the remaining years of the refunded debt. The refunding resulted in an increase in future debt service cash flows of \$7,859,444 and an economic loss of \$375,159.

During fiscal year 2014, the Tax Increment Financing Authority component unit advance refunded \$612,587 of principal and \$1,952,413 of accrued interest related to 1994 Tax Increment Revenue Bonds to provide resources to purchase U.S. government securities that were placed in an escrow fund for the purpose of generating resources for all future debt service payments on \$2,565,000 of refunded debt. As a result, the bonds are considered defeased and the liability has been removed from the statement of net position. The reacquisition price of the refunding bonds was less than the carrying amount of the refunded debt by \$8,863 and, accordingly, is being amortized of the remaining years of the refunded debt. The refunding resulted in an increase in future debt service cash flows of \$4,025,425 and an economic loss of \$312,935.

Revenue bonds. The City also issues bonds where the income derived from the acquired or constructed assets is pledged to pay debt service. Revenue bonds outstanding at year-end are as follows:

| | Interest Rate | Original Amount | Amount |
|------------------------------------------|------------------|--------------------|---------------|
| | Rate | Amount | Amount |
| Revenue bonds - business type activities | | | |
| 2013 Sewer Revenue and Refunding Bond | 2.40% | \$ 64,330,000 | \$ 21,765,000 |

Installment purchase agreements. The government enters into installment purchase agreements for equipment and related capital assets. Installment purchase agreements outstanding at year-end are as follows:

| | Interest | Original | |
|--------------------------------------------------|----------|--------------|--------------|
| | Rate | Amount | Amount |
| Installment purchase agreements | | | |
| Governmental activities: | | | |
| 2005 Lease Purchase Agreement - LEPFA Carpet | 4.51% | \$ 126,418 | \$ 15,459 |
| 2005 Lease Purchase Agreement - LEPFA Equipment | 4.24% | 81,500 | 14,553 |
| 2012 Lease Purchase Agreement - Snowmobile | 2.40% | 147,046 | 63,199 |
| 2013 Lease Purchase Agreement - Garage | 2.40% | 1,892,332 | 1,518,630 |
| 2014 Lease Purchase Agreement - Recycling Trucks | 1.96% | 1,550,855 | 1,488,722 |
| | | | |
| | | \$ 3,798,151 | \$ 3,100,563 |

Notes to Financial Statements

Loans payable. The government has entered into loan agreements with the certain State agencies for program purposes. Loans payable at year-end are as follows:

| | Interest Rate | Original Amount | Amount |
|-------------------------------------------------|------------------|--------------------|-----------------|
| Loans payable | | | |
| Governmental activities: | | | |
| 2004 Michigan Department of Transportation Loan | 3.00% | \$ 1,266,000 | \$ 175,934 |
| HUD Section 108 Loan | 2.40% | 5,900,000 | 5,900,000 |
| 2014 SIB Loan | 3.00% | 986,300 | 986,300 |
| | | | |
| | | \$ 8,152,300 | \$ 7,062,234 |

Changes in long-term debt. Long-term liability activity for the year ended June 30, 2014, was as follows:

| | Beginning Balance | Additions | Reductions | Ending Balance | Due Within One Year | |
|--------------------------------------------------|----------------------|---------------|---------------|-------------------|------------------------|--|
| Governmental activities | | | | | | |
| General obligation bonds Installment purchase | \$ 29,932,000 | \$ - | \$ 2,787,000 | \$ 27,145,000 | \$ 2,915,000 | |
| agreements | 2,807,838 | 1,550,855 | 1,258,130 | 3,100,563 | 624,065 | |
| Loans payable | 6,246,743 | 986,300 | 170,809 | 7,062,234 | 175,934 | |
| | | | | | | |
| Total installment debt | 38,986,581 | 2,537,155 | 4,215,939 | 37,307,797 | 3,714,999 | |
| Deferred amounts: | | | | | | |

Notes to Financial Statements

10. FUND BALANCES - GOVERNMENTAL FUNDS

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies fund balances based primarily on the extent to which it is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Detailed information on fund balances of governmental funds is as follows:

| | General Fund | Nonmajor overnmental Funds | Totals |
|-------------------------------------|-----------------|----------------------------------|------------------|
| Nonspendable | | | |
| Inventories | \$ 49,601 | \$ 833,380 | \$ 882,981 |
| Prepaids | 30,169 | - | 30,169 |
| Corpus of permanent fund | | 1,718,595 | 1,718,595 |
| | 79,770 | 2,551,975 | 2,631,745 |
| Restricted | | | |
| Donations | 36,854 | - | 36,854 |
| Major and local streets | - | 5,449,942 | 5,449,942 |
| Drug law and narcotics | | -, -, | - , . , . |
| enforcement | - | 1,084,370 | 1,084,370 |
| Various state and federal grants | - | 4,353 | 4,353 |
| Shopping district events | | · | |
| and maintenance | - | 12,609 | 12,609 |

Notes to Financial Statements

11. NET INVESTMENT IN CAPITAL ASSETS

The composition of net investment in capital assets as of June 30, 2014, was as follows:

| | Governmental Activities | Business-type Activities | Component Units |
|---------------------------------------|-------------------------|-----------------------------|--------------------|
| Capital assets: | | | |
| Capital assets not being depreciated | \$ 28,007,085 | \$ 21,129,786 | \$ - |
| Capital assets being depreciated, net | 159,926,999 | 368,480,927 | 14,398 |
| Total capital assets | 187,934,084 | 389,610,713 | 14,398 |
| Related debt: | | | |
| General obligation bonds | 27,145,000 | 175,033,286 | - |
| Revenue bonds | - | 21,765,000 | - |
| Installment purchase agreements | 3,100,563 | 1,668,081 | - |
| Loans payable | 7,062,234 | - | - |
| Unamortized bond discounts | (86,654) | (782,377) | - |
| Unamortized bond premiums | 121,948 | 2,511,390 | - |
| Deferred loss on bond refunding | (201,592) | (3,163,496) | - |
| Amounts under leases receivable | - | (21,880,012) | - |
| Unexpended bond proceeds | (183,425) | | |
| Total related debt | 36,958,074 | 175,151,872 | _ |
| Net investment in capital assets | \$ 150,976,010 | \$ 214,458,841 | \$ 14,398 |

12. SEGMENT INFORMATION - ENTERPRISE FUNDS

The government issued revenue bonds to finance certain improvements to its sewage disposal system. Because the Sewage Disposal System, an individual fund that accounts entirely for the government's sewage activities, is a segment and is reported as a major fund in the fund financial statements, separate segment disclosures herein are not required.

13. RISK MANAGEMENT

The City of Lansing is exposed to various risks of loss related to property loss, torts, errors and omissions and employee injuries.

The City carries commercial insurance for claims relating to general liability, property, electronic data processing, boiler and machinery, police professional and errors and omissions. The City has not experienced settlements in excess of insurance coverage during the past three years.

The City is uninsured for acts of nature and environmental clean-up costs.

Notes to Financial Statements

The City is self-funded for Blue Cross Blue Shield healthcare coverage for employees and retirees. The City maintains stop/loss coverage that limits its per-case exposure to \$250,000. The City estimates healthcare claims that are incurred but not reported as of year-end, which is accounted for in the City's Fringe Benefits Internal Service Fund. Changes in the estimated liability were as follows:

| | Fiscal Year Ended June 30 | | | | |
|-------------------------------------------------------------------|---------------------------|--------------|------|--------------|--|
| | | 2014 | 2013 | | |
| Estimated liability, beginning of year Estimated claims incurred, | \$ | 814,014 | \$ | 897,523 | |
| including changes in estimates | | 11,756,639 | | 11,130,338 | |
| Claim payments | | (11,738,845) | | (11,213,847) | |
| Estimated liability, end of year | \$ | 831,808 | \$ | 814,014 | |

The City is self-insured for workers' compensation costs. The City estimates the liability for workers' compensation claims that have been incurred through the end of the fiscal year, including those claims that have been reported as well as those that have not yet been reported to the City. The current liability is accounted for in the general fund, with long term liabilities accounted for in the Statement of Net Position. The City has liability insurance coverage up to a maximum amount of \$16,000,000 per occurrence with a \$350,000 deductible. Changes in the estimated long-term liability as well as the total estimated cost of claims for the past two fiscal years were as follows:

Fiscal Vear Ended June 30

| | riscal real Lilueu Julie 30, | | | | |
|-------------------------------------------------------------------|------------------------------|-------------|------|-------------|--|
| | | 2014 | 2013 | | |
| Estimated liability, beginning of year Estimated claims incurred, | \$ | 6,986,062 | \$ | 7,131,238 | |
| including changes in estimates | | 6,875 | | 1,118,901 | |
| Claim payments | | (1,025,344) | | (1,264,077) | |
| Estimated liability, end of year | \$ | 5,967,593 | \$ | 6,986,062 | |

14. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of the date they are levied. City, community college, and 50% of school taxes are levied and due July 1 and become delinquent after August 31. County taxes and the balance of school taxes are levied and due December 1 and become delinquent after February 14. In March, taxes on real property still delinquent are purchased by the County's tax revolving funds. Collections of community college, school, and county taxes and remittances are accounted for in the general fund. City property tax revenues are recognized in the fiscal year for which the taxes are levied to the extent that they result in current receivables (i.e., are collected within 60 days after fiscal year-end).

The City is permitted by charter and state law to levy taxes up to \$20.000 per \$1,000 of assessed valuation for general operations other than the payment of principal and interest on long-term debt. The tax rate to finance general governmental services other than the payment of principal and interest on long-term debt for the year ended June 30, 2014 was \$19.44 per \$1,000 of taxable value.

Notes to Financial Statements

15. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and potential adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds.

The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the government.

16. PENSION PLANS

Employees' Retirement System

Plan Description. The City sponsors and administers the Employees' Retirement System (the "Plan"), a single-employer, defined benefit pension plan that covers general full-time employees of the City of Lansing and employees of the 54-A District Court. It does not include elected officials, who are members of the Employees' Money Purchase Pension Plan, nor does it include police officers and firefighters, who are members of a separate City defined benefit pension plan. The Plan was established and may be amended by the City Council and is administered by 9-member Board of Trustees. The Board is comprised of The Mayor of the City, one member of the City Council appointed by the City Council, the City Treasurer, the City Human Resources Director, three members of the retirement system to be elected by the members of the system under rules adopted by the board, two residents of the State of Michigan appointed by the Mayor, by and with the consent of the City Council, one of which is a retiree of the retirement system. It is accounted for as a separate pension trust fund. Separate financial statements are not issued for the Plan.

All members may retire at age 50 with 25 or more years of credited service, or age 58 with 8 or more years of credited service. Members are vested after completing 8 years of credited service. Retirement options that provide for survivor benefits are available to members. The plan also provides death and disability benefits. If a member leaves employment or dies before vesting, accumulated member contributions plus interest are refunded to the member or designated beneficiary. Members who are vested and terminate their employment prior to retirement will receive their benefit as a life annuity beginning at age 58.

Summary of Significant Accounting Policies. The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period which the contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contribution has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Administration of the Plan is funded through the Plan's investment earnings.

Method Used to Value Investments. Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of the Plan Board of Trustees, with the assistance of a valuation service.

Notes to Financial Statements

Plan Membership. At June 30, 2014, plan membership consisted of the following:

| Retirees and beneficiaries currently receiving benefits | 885 |
|-----------------------------------------------------------------|-------|
| Terminated employees entitled to but not yet receiving benefits | 68 |
| Vested and non-vested active participants | 373 |
| | |
| Total membership | 1,326 |

Benefits Provided. Employees who retire with minimum age and years of service requirements are entitled to annual retirement benefits, payable in monthly installments for life, in an amount equal to a percentage of their final average compensation times years of credited service. Final average compensation is defined as the average of the highest annual compensation paid over 2 consecutive years of credited service within the last 10 years of credited service immediately preceding a member's termination of employment. The benefit payments are calculated using the following rates for the various groups of general employees:

| Bargaining Unit/Employee Group | Multiplier Percentage |
|-----------------------------------|--------------------------|
| United Auto Workers (UAW): | |
| Hired after January 18, 2013 | 1.70% |
| All others | 2.75% |
| Teamsters Local 214: | |
| Hired after September 2012 | 1.25% |
| All others | 1.80% |
| Teamsters Local 580: | |
| Hired after May 2014 | 1.25% |
| All others | 1.80% |
| Non-bargaining and all others | 1.60% |

Notes to Financial Statements

Contributions. The contribution requirements of Plan members are established and may be amended by the City Council in accordance with City policies, union contracts, and Plan provisions. Employees are required to make contributions to the Plan in rates from 3.00 to 6.50 percent depending on bargaining unit and hire date. The City is required to contribute at actuarially determined rates expressed as a percentage of covered payroll. The City's contribution rate for the plan for the year ended December 31, 2013 was 43.5 percent of projected valuation payroll.

| Bargaining Unit/Employee Group | Contribution Percentage |
|-------------------------------------------------------------|-------------------------|
| United Auto Workers (UAW) Teamsters Local 214: | 3.00% |
| Hired after September 2012 All others | 5.00% 6.50% |
| Teamsters Local 580: | |
| Hired after May 2014 All others | 5.00% 6.35% |
| District court Teamsters and exem Hired after April 2014 | pt: 5.00% |
| All others All others | 5.50% 6.50% |

Investment Policy. The plan's policy in regard to the allocation of invested assets is established and may be amended by the Board of Trustees. The investment policy has been formulated based on consideration of a wide range of policies and describes the prudent investment process that the Board deems appropriate. The Plan's asset allocation policy is shown on the following pages.

Rate of Return. For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 12.7 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Concentrations. At June 30, 2014, the Plan held certain investments (other than those issued or explicitly guaranteed by the U.S. government, mutual funds, external investment pools, or other pooled investments) in certain organizations that represent 5 percent or more of the Plan's fiduciary net position. Please see Note 4 for the details of these concentrations.

Notes to Financial Statements

Reserves. In accordance with the Plan policy, the City establishes reserves for various purposes. The reserves are adjusted annually based on recommendations from the City's actuaries. The policy for creating and adjusting reserves was established and can be amended by the Plan Board of Trustees. A summary of the Plan reserves at June 30, 2014 is as follows:

| Reserve/Group | Balance |
|---------------------------|---------------|
| Employee savings fund | \$ 29,631,080 |
| Retirement reserve fund | 146,374,121 |
| Pension accumulation fund | (8,011,319) |
| Members benefit fund | 17,124,778 |
| Health insurance fund | 20,414,547 |

Net Pension Liability. The components of the net pension liability for the employees' retirement system at June 30, 2014 were as follows:

| Total pension liability Plan fiduciary net position | \$ 323,057,486 185,118,660 |
|----------------------------------------------------------------------|-------------------------------|
| Net pension liability | \$ 137,938,826 |
| Plan fiduciary net position as percentage of total pension liability | 57.30% |

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 3.10% |
|---------------------------|------------------------------------------------|
| Salary increases | 3.10%, plus service based increases |
| Investment rate of return | 7.60%, net of investment expense and including |
| | inflation |

Notes to Financial Statements

Mortality is based on the RP-2000 tables (with Blue Collar adjustments for Police and Fire) for males and females. For Disabled members, the disabled versions of these tables are used with a 5 year age setback for males. Each of these tables is projected to 2008 using Scale BB. Future improvements in mortality for non-disabled members are anticipated by projecting these tables an additional 15 years using 50% of Scale BB.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of actuarial experience analysis conducted in 2012. The next assumption review is scheduled for 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which a (downward) risk adjustment is applied to the baseline expected return. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, and the final investment return assumption, are summarized in the following table:

| | Target | Long-term Expected Real | Money- Weighted Rate |
|---------------------------|------------|----------------------------|-------------------------|
| Asset Class | Allocation | Rate of Return | of Return |
| | | | |
| Domestic equity | 47.00% | 5.80% | 2.73% |
| International equity | 18.00% | 6.19% | 1.11% |
| Fixed income | 29.00% | 2.30% | 0.67% |
| Real estate | 5.00% | 4.20% | 0.21% |
| Cash | 1.00% | 1.00% | 0.01% |
| | 100.00% | | 4.73% |
| Inflation | | | 3.10% |
| Risk adjustments | | | -0.23% |
| Investment rate of return | | | 7.60% |

Discount Rate. The discount rate used to measure the total pension liability was 7.35%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be exhausted in the year 2056. Therefore, the discount rate represents the single equivalent rate resulting from discounting at the long-term expected rate of return until 2056, and discounting with the 20-year AA municipal bond index rate of 3.75% thereafter. This projection is done on a closed group basis, per GASB requirements. On an ongoing, opengroup basis, it is unlikely that the funds will be depleted because funding progress is frequently reviewed and adjustments are made to contribution levels.

Notes to Financial Statements

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the City, calculated using the discount rate of 7.35 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.35 percent) or 1-percentage point higher (8.35 percent) than the current rate:

| One Percent | Current | One Percent |
|-------------|---------------|-------------|
| Decrease | Discount Rate | Increase |
| (6.35%) | (7.35%) | (8.35%) |
| | | |

Net pension liability

\$ 173,151,593 \$ 137,938,826 \$ 106,099,006

Employer Contributions. During the year ended June 30, 2014, total contributions of \$9,361,009 were made in accordance with actuarially determined requirements, computed through an actuarial valuation performed as of June 30, 2012.

Net Pension Obligation. The City's annual net pension cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Plan's annual net pension cost for the year, the amount actually contributed to the Plan, and changes in the net pension obligation:

| Annual required contribution | \$ | 9,361,000 |
|--------------------------------------------------------------------------------|----------|------------------|
| Interest on net pension obligation Adjustment to annual required contribution | | 4,873 (4,089) |
| Adjustment to annual required contribution | | (4,007) |
| Net pension cost (expense) | | 9,361,784 |
| Contributions made | | (9,361,009) |
| Increase in net pension obligation | | 775 |
| Net pension obligation, beginning of year | | 64,115 |
| | | 4 4 9 9 9 |
| Net pension obligation, end of year | <u>Ş</u> | 64,890 |

Employer contributions to the Plan for the current fiscal year and two years prior were as follows:

| Three-Year Trend Information | | | | | | |
|------------------------------|----|------------|-------------|----|-----------|-----|
| | | Annual | | Ne | t Pension | |
| Years Ended | Pe | nsion Cost | Percentage | | (Asset) | |
| June 30, | | (APC) | Contributed | 0 | bligation | |
| | | | | | | |
| 2012 | \$ | 7,596,622 | 99% | \$ | 62,909 | (1) |
| 2013 | | 8,587,742 | 100% | | 64,115 | |
| 2014 | | 9,361,784 | 100% | | 64,890 | |

Notes to Financial Statements

(1) The FY 2012 City contribution was reduced by \$73,345 in recognition of additional contributions by International United Auto Workers (UAW) employees, which were negotiated and contributed after the establishment of the June 30, 2012 ARC from the December 31, 2010 valuation.

The schedule of employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, presents trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 50. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Police and Fire Retirement System

Plan Description. The City sponsors and administers the Police and Fire Retirement System (the "Plan"), a single-employer, defined benefit pension plan that covers all police officers and fire fighters who are full-time employees of the City. The Plan was established and may be amended by the City Council and is administered by an 8-member Board of Trustees. The Board is comprised of The Mayor of the City, one member of the City Council appointed by the City Council, a resident of the City who shall be appointed by the Mayor, by and with the consent of Council, two members each of the police and fire departments, to be elected by all the members of their respective departments. It is accounted for as a separate pension trust fund. Separate financial statements are not issued for the Plan.

Members may retire at age 55, or at any age with 25 or more years of credited service. Members are vested after completing 10 years of credited service. Members are required to retire at age 60 (Police) or 70 (Fire). When an employee who had retired subsequent to August 31, 1966, dies, the plan provides for an automatic pension to the retiree's spouse. This automatic pension is equal to 50% of the regular retirement benefit the employee had been receiving at time of death. Effective July 30, 1990, members may elect a reduced benefit, either 93% or 86% of the regular benefit, thereby increasing the spouse pension to 75% or 86% of the regular benefit, respectively. Alternately, members may elect a non-spousal beneficiary option. The plan provides death and disability benefits. If a member leaves employment or dies before vesting, accumulated member contributions plus interest are refunded to the member or designated beneficiary. Members who are vested and terminate their employment have the option of deferred retirement benefits until age 55 or withdrawing their contribution, thereby forfeiting any future benefits.

Summary of Significant Accounting Policies. The financial statements of the Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period which the contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contribution has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Administration of the Plan is funded through the Plan's investment earnings.

Method Used to Value Investments. Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of the Plan Board of Trustees, with the assistance of a valuation service.

Notes to Financial Statements

Plan Membership. At June 30, 2014, plan membership consisted of the following:

| Retirees and beneficiaries currently receiving benefits | 699 |
|-----------------------------------------------------------------|-------|
| Terminated employees entitled to but not yet receiving benefits | 38 |
| Vested and non-vested active participants | 352 |
| | |
| Total membership | 1,089 |

Benefits Provided. Annual retirement allowances are determined by multiplying final average compensation by 3.2% for the first 25 years of credited service. The maximum allowance is 80% of final average compensation. Final average compensation is the member's highest wages for 2 consecutive years.

Contributions. The contribution requirements of Plan members are established and may be amended by the City Council in accordance with City policies, union contracts, and Plan provisions. Fire members are required to contribute 9.08 percent of their annual wages to the plan. Police supervisors are required to contribute 9.52 percent and police non-supervisors, 8.50 percent. Chapter 294 of the City of Lansing's Ordinance establishes benefit provisions and requires that the portion of the annuity and pension reserves (which are determined annually by the City's actuary) not financed by member contributions shall be financed by annual appropriations. The City's contribution rate for the plan for the year ended June 30, 2014 was 42.6 percent of projected valuation payroll.

Investment Policy. The plan's policy in regard to the allocation of invested assets is established and may be amended by the Board of Trustees. The investment policy has been formulated based on consideration of a wide range of policies and describes the prudent investment process that the Board deems appropriate. The Plan's asset allocation policy is shown on the following pages.

Rate of Return. For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 10.1 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Concentrations. At June 30, 2014, the Plan held certain investments (other than those issued or explicitly guaranteed by the U.S. government, mutual funds, external investment pools, or other pooled investments) in certain organizations that represent 5 percent or more of the Plan's fiduciary net position. Please see Note 4 for the details of these concentrations.

Reserves. In accordance with the Plan policy, the City establishes reserves for various purposes. The reserves are adjusted annually based on recommendations from the City's actuaries. The policy for creating and adjusting reserves was established and can be amended by the Plan Board of Trustees. A summary of the Plan reserves at June 30, 2014 is as follows:

| Reserve/Group | Balance |
|-------------------------|----------------|
| | |
| Retirement reserve fund | \$ 300,473,516 |
| Health insurance fund | 23,437,214 |

Notes to Financial Statements

Net Pension Liability. The components of the net pension liability for the police and fire retirement system at June 30, 2014, were as follows:

Total pension liability \$ 389,416,813 Plan fiduciary net position \$ 300,473,516

Net pension liability \$ 88,943,297

Plan fiduciary net position as percentage of total pension

liability 77.16%

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 3.10%

Salary increases 3.10%, plus service based increases

Investment rate of return 7.60%, net of investment expense and including

inflation

Mortality is based on the RP-2000 tables (with Blue Collar adjustments for Police and Fire) for males and females. For Disabled members, the disabled versions of these tables are used with a 5 year age setback for males. Each of these tables is projected to 2008 using Scale BB. Future improvements in mortality for non-disabled members are anticipated by projecting these tables an additional 15 years using 50% of Scale BB.

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of actuarial experience analysis conducted in 2012. The next assumption review is scheduled for 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which a (downward) risk adjustment is applied to the baseline expected return. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, and the final investment return assumption, are summarized in the following table:

Notes to Financial Statements

| Asset Class | Target Allocation | Long-term Expected Real Rate of Return | Money- Weighted Rate of Return |
|--------------------------------------------------------------------|----------------------------------------------|----------------------------------------------|-------------------------------------------|
| Domestic equity International equity Fixed income Real estate Cash | 47.00% 18.00% 29.00% 5.00% 1.00% | 5.80% 6.19% 2.30% 4.20% 1.00% | 2.73% 1.11% 0.67% 0.21% 0.01% |
| | 100.00% | | 4.73% |
| Inflation Risk adjustments | | | 3.10% -0.23% |
| Investment rate of return | | | 7.60% |

Discount Rate. The discount rate used to measure the total pension liability was 7.57%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be exhausted in the year 2072. Therefore, the discount rate represents the single equivalent rate resulting from discounting at the long-term expected rate of return until 2070, and discounting with the 20-year AA municipal bond index rate of 3.75% thereafter. This projection is done on a closed group basis, per GASB requirements. On an ongoing, opengroup basis, it is unlikely that the funds will be depleted because funding progress is frequently reviewed and adjustments are made to contribution levels.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the net pension liability of the City, calculated using the discount rate of 7.57 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.57 percent) or 1-percentage point higher (8.57 percent) than the current rate:

| One Percent | Current | One Percent |
|-------------|---------------|-------------|
| Decrease | Discount Rate | Increase |
| (6.57%) | (7.57%) | (8.57%) |
| | | |

Net pension liability

\$ 127,496,909 \$ 88,943,297 \$ 48,101,183

Employer Contributions. During the year ended June 30, 2014, total contributions of \$11,248,857 were made in accordance with actuarially determined requirements, computed through an actuarial valuation performed as of June 30, 2012.

Net Pension Obligation. The City's annual net pension cost (expense) is calculated based on the annual required contribution of the employer (ARC). The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Plan's annual net pension cost for the year, the amount actually contributed to the Plan, and changes in the net pension obligation:

Notes to Financial Statements

| Annual required contribution Interest on net pension obligation Adjustment to annual required contribution | \$ 11,248,857 13,605 (11,415) |
|------------------------------------------------------------------------------------------------------------|-------------------------------------|
| Net pension cost (expense) | 11,251,047 |
| Contributions made | (11,248,857) |
| Increase in net pension obligation | 2,190 |
| Net pension obligation, beginning of year | 179,013 |
| Net pension obligation, end of year | \$ 181,203 |

Employer contributions to the Plan for the current fiscal year and two years prior were as follows:

| Three-Year Trend Information | | | | | |
|------------------------------|------------------------|---------------------------|-----------------------|-----|--|
| Years Ended | Annual Pension Cost | Dorcontago | Net Pension | | |
| June 30, | (APC) | Percentage Contributed | (Asset) Obligation | | |
| 2012 | \$ 9,241,957 | 98% | \$ 175,646 | (1) | |
| 2013 | 10,136,966 | 100% | 179,013 | | |
| 2014 | 11,251,047 | 100% | 181,203 | | |

(1) The FY 2012 City contribution was reduced by \$185,093 in recognition of additional contributions by International Association of Firefighters (IAFF) employees, which were negotiated and contributed after the establishment of the June 30, 2012 ARC from the December 31, 2010 valuation.

The schedule of employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, presents trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement No. 50. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements

17. OTHER POSTEMPLOYMENT BENEFITS

Primary Government

Plan Description. The City of Lansing contributes to the Employees' Retirement System, the Police and Fire Retirement System, and the Voluntary Employees Beneficiary Association amounts to pre-fund postemployment healthcare. In the Employees' Retirement System and the Police and Fire Retirement System, these other postemployment benefits (OPEB) are set up as reserves in the pension plans, and their investments are commingled with the investments of the pension plan. Portfolio makeup is reported as a percentage of total pension plan assets. Earnings are calculated based on a seven year smoothed rate of return of the retirement systems. Eligible participants include any retirees who receive pension benefits under their respective pension plans, with the exception of Teamster 580 employees hired after May, 2014. OPEB plan provisions are established and may be amended by the City Council, subject to the City's various collective bargaining agreements. Separate financial statements are not prepared for the plans.

Basis of Accounting. The Plans' financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plans.

Method Used to Value Investments. Plan investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of each plans' board of trustees, with the assistance of a valuation service.

Voluntary Employment Beneficiary Association (VEBA)

The City of Lansing Voluntary Employees Beneficiary Association (the "Plan") is a single-employer defined benefit post employment healthcare plan established by the City to provide medical and healthcare benefits for retirees and their beneficiaries. Eligible participants include any retirees who receive pension benefits under one of the City's pension plans. The Plan is funded by a trust agreement established pursuant to Section 501(c)(9) of the Internal Revenue Code that allows for the formation of a VEBA. During the year, the City contributed \$750,000 to the Plan.

Employees' Retirement System

The City provides postemployment health care benefits, in accordance with labor agreements, to full-time employees of the City and employees of the 54-A District Court (not including police officers and firefighters who are members of the Police and Fire Retirement System). Members eligible for pension benefits under the Employees' Retirement System are also eligible to receive health care benefits, with the exception of Teamster 580 employees hired after May, 2014. The City provides the full cost of health benefits to retirees, payable to health care vendors, and also reimburses retirees eligible for Medicare benefits of \$96.40 per month for each covered retiree and eligible dependent(s) eligible for retiree healthcare. The payments are charged to the fringe benefit internal service fund of the City and are recognized as expenses as payments are made.

Notes to Financial Statements

Membership of the Plan consisted of the following at December 31, 2011, the date of the most recent actuarial valuation:

| Retirees and beneficiaries receiving benefits | 675 |
|-----------------------------------------------|-------|
| Terminated plan members entitled to but | |
| not yet receiving benefits | 65 |
| Active plan members | 481 |
| | _ |
| Total | 1,221 |

During the year, the City contributed \$11,048,992 (direct benefit payments of \$10,638,992 and City contributions of \$410,000) to the Plan.

| Annual required contribution | \$ 14,040,043 |
|--------------------------------------------|------------------|
| Interest on net OPEB obligation | 170,506 |
| Adjustment to annual required contribution | (152,930) |
| | |
| Net OPEB cost (expense) | 14,057,619 |
| Contributions made | (11,048,992) |
| | |
| Increase in net OPEB obligation | 3,008,627 |
| Net OPEB obligation, beginning of year | 3,965,258 |
| | |
| Net OPEB obligation, end of year | \$ 6,973,885 |

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the current year and the two preceding years were as follows:

| Three-Year Trend Information | | | | | | |
|------------------------------|-------------------------------------------|----------------------|----|-------------------------------------|--|--|
| | | Percentage of Annual | | | | |
| | Annual OPEB | OPEB Cost | I | Net OPEB | | |
| Year Ended | Cost | Contributed | (| Obligation | | |
| 2012 2013 2014 | \$ 14,915,958 12,775,667 14,057,619 | 79.4% | \$ | 1,337,371 3,965,258 6,973,885 | | |

The schedule of employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, presents trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements

Funded Status and Funding Progress. As of December 31, 2011, the most recent actuarial valuation date, the Plan was 12.6 percent funded. The actuarial accrued liability for benefits was \$226,915,143, and the actuarial value of assets was \$28,680,151, resulting in an unfunded actuarial accrued liability (UAAL) of \$198,234,992. The covered payroll (annual payroll of active employees covered by the Plan) was \$24,813,423, and the ratio of the UAAL to the covered payroll was 798.9 percent. The Employees' Retirement System and VEBA were combined in the actuarial valuation.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2011 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 4.3 percent investment rate of return (net of administrative expenses), which includes a 3.3 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2011, was thirty years.

Police and Fire Retirement System

The City also provides postemployment health care benefits, in accordance with labor agreements, to members who are eligible to receive pension benefits under the Police and Fire Retirement System. The City provides the full cost of health benefits to retirees, payable to health care vendors, and also reimburses retirees eligible for Medicare benefits of \$104.90 per month for each covered retiree and dependent(s). The payments are charged to the fringe benefit internal service fund of the City and are recognized as expenses as payments are made.

Notes to Financial Statements

Membership of the Plan consisted of the following at December 31, 2011, the date of the most recent actuarial valuation:

| Retirees and beneficiaries receiving benefits | 478 |
|-----------------------------------------------|-----|
| Terminated plan members entitled to but | |
| not yet receiving benefits | 16 |
| Active plan members | 362 |
| | |
| Total | 856 |

During the year, the City contributed \$11,198,633 (direct benefit payments of \$10,258,633 and City contributions of \$940,000) to the Plan.

| Annual required contribution | \$ 16,852,426 |
|--------------------------------------------|------------------|
| Interest on net OPEB obligation | 1,455,249 |
| Adjustment to annual required contribution | (1,362,139) |
| | _ |
| Net OPEB cost (expense) | 16,945,536 |
| Contributions made | (11,198,633) |
| | _ |
| Increase in net OPEB obligation | 5,746,903 |
| Net OPEB obligation, beginning of year | 33,843,009 |
| | |
| Net OPEB obligation, end of year | \$ 39,589,912 |

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the Plan, and the net OPEB obligation for the current year and the two preceding years were as follows:

| Three-Year Trend Information | | | | | | |
|------------------------------|-------------------------------------------|-----------------------------------------------------|-------------------------------------------|--|--|--|
| Year Ended | Annual OPEB Cost | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation | | | |
| 2012 2013 2014 | \$ 17,844,115 17,489,692 16,945,536 | | \$ 27,523,519 33,843,009 39,589,912 | | | |

The schedule of employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, presents trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Notes to Financial Statements

Funded Status and Funding Progress. As of December 31, 2011, the most recent actuarial valuation date, the Plan was 7.4 percent funded. The actuarial accrued liability for benefits was \$252,220,445, and the actuarial value of assets was \$18,678,699, resulting in an unfunded actuarial accrued liability (UAAL) of \$233,541,746. The covered payroll (annual payroll of active employees covered by the Plan) was \$25,128,835, and the ratio of the UAAL to the covered payroll was 929.4 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2011 actuarial valuation, the entry age actuarial cost method was used. The actuarial assumptions included a 4.3 percent investment rate of return (net of administrative expenses), which includes a 3.0 percent inflation assumption. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at December 31, 2011, was thirty years.

18. OPERATING LEASE

During fiscal year 2014, the City entered into an operating lease with the Lansing School District (the "District"), for approximately 86,900 square feet of the Hill Center for Academics and Technology for the purpose of operating a police precinct. The term of the lease runs through June 30, 2018. The City is required to make approximately \$800,000 worth of improvements to the leased space, the cost of which will be capitalized by the District. In addition, beginning July 1, 2016, rent payments will be made to the District by the City in monthly installments of \$2,083 (\$25,000 annually) and \$10,417 (\$125,000 annually) for the years ended June 1, 2017 and 2018, respectively.

Notes to Financial Statements

19. ADOPTION OF NEW ACCOUNTING PRONOUNCEMENT

The City adopted the provisions of GASB Statement No. 65 (GASB 65), *Items Previously Reported as Assets and Liabilities*, in the current year. In addition to the revised classification of certain financial elements in the financial statements, the implementation of GASB 65 resulted in the elimination of bond issuance costs as an asset. As a result of this change, beginning net position in various funds and activities decreased by the following amounts:

| Opinion Unit | Amount of Decrease | | |
|-----------------------------------------------------------------------------------------------------------------------------------|-----------------------|----------------------------------------|--|
| Governmental Activities | \$ | 160,441 | |
| Business-type Activities: Sewer Disposal System Municipal Parking System Nonmajor Enterprise Funds Total business-type activities | | 524,852 396,641 3,292 924,785 | |
| Component Unit: Tax Increment Finance Authority | \$ | 143,468 | |

20. SUBSEQUENT EVENTS

On July 9, 2014, the City issued \$2,360,000 of Limited Tax General Obligation bonds for sanitary sewer system improvements. Payments are to be made semi-annually over a 20 year period, beginning on April 1, 2016. Interest is charged on the outstanding balance at 2.50 percent.

On August 7, 2014, the City issued \$2,275,000 of capital improvement bonds. Payments are to be made semi-annually over a 3 year period, beginning on May 1, 2015. Interest is charged on the outstanding balance at rates that vary from 1.25 to 2.00 percent.

On September 30, 2014, the City signed an installment purchase agreement for the purchase of police vehicles for a total of \$491,241. Payments are to be made semi-annually over a 3 year period, beginning on April 1, 2015. The agreement includes interest at a rate of 1.44 percent.

^{*} The City contributed in excess of its FY 2009 Actuarially Determined Employer Contribution (ADEC). The City's FY 2010 contribution was reduced by the dollar amount of the FY 2009 overpayment. The FY 2012 City contribution was reduced by \$73,345 in recognition of additional contributions by United Auto Workers (UAW) employees, which were negotiated and contributed after the establishment of the June 30, 2012 ADEC from the December 31, 2010 valuation.

The actuarially determined contribution was based on projected covered payroll. Employer contributions were made in full based on actual covered payroll. Accordingly, the actuarially-determined contribution has been expressed above as a percentage of actual payroll.

Notes to Schedule of Contributions

Valuation Date December 31, 2013 (rolled forward to June 30, 2014)

Notes Actuarially determined contribution rates are calculated as of June 30, which is 12

months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Amortization method Level percent of payroll, closed

Remaining amortization

period 28 years

Asset valuation method Open; 5-year smooth market

Inflation 3.10%

Salary increases 3.10% plus service based increases

Investment rate of return 7.60%

Retirement age Age-based table of rates that are specific to the type of eligibility condition. Last

updated for the December 31, 2011 valuation. The next study is scheduled for

Nonmajor Special Revenue Funds

Major Streets Fund - This fund accounts for revenues received from the State of Michigan for the City's share of state gasoline and weight taxes, which is used for maintenance of major streets.

Local Streets Fund - This fund accounts for revenues received from the State of Michigan for the City's share of state gasoline and weight taxes, which is used for maintenance of local streets.

Drug Law Enforcement Federal Fund - This fund accounts for federal revenues, from the Departmens of Justice and Treasury, set aside for drug law enforcement under the provisions of Federal Grant Agreements.

Drug Law Enforcement State and Local Fund - This fund accounts for state and local revenues, from the Departmens of Justice and Treasury, set aside for drug law enforcement under the provisions of State of Michigan Public Act 135 of 1985, as amended.

Community Development Block Grant Program Fund - This fund accounts for revenues received from the Department of Housing and Urban Development. These revenues are restricted to accomplishing the various objectives of Community Development Block Grant Programs, within specific target areas.

Downtown Lansing, Inc. Fund - This fund accounts for assessments received from businesses located in the district. The revenues are used for special events and maintenance of the district.

Building Department Fund - This fund accounts for revenues and expenditures resulting from the enforcement of the State Construction Code Act of 1999 (PA 245 of 1999).

Parks Department Fund - This fund accounts for contributions and transfers which are restricted for park expenditures.

The State and Federal Grants Fund - This fund accounts for all revenues received from miscellaneous grants and local contributions. These revenues are used for projects as detailed in individual grant applications.

Tri-County Metro Fund - This fund accounts for the operations of the Tri-County Metro Narcotics Squad.

STATISTICAL SECTION

Statistical Section Table of Contents

This part of the City of Lansing, Michigan's (the "City") comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| | | <u>Page</u> |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| Financial Trends | These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time. | 175 |
| Revenue Capacity | These schedules contain information to help the reader assess the factors affecting the City's ability to generate its property taxes. | 180 |
| Debt Capacity | These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. | 184 |
| Demographic and Economic Information | These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments. | 189 |
| Operating Information | These schedules contain information about the City's operations and resources to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs. | 191 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

⁽¹⁾ In 2005 the City's definition for Permanent Funds fund balance changed to "unreserved" due to the nature of the funds being set up as a reserved fund

⁽²⁾ The City implemented GASB 54 for the Fiscal Year Ended June 30, 2011. Prior years were not restated retroactively.
